PROFESSIONAL SUMMARY

Graphic designer and video editor with experience producing short-form video, brand identities and marketing materials for technology and hospitality businesses. I design logos, banners, brochures and social posts, and edit video built for fast-scrolling platforms like TikTok. As a fourth-year Software Engineering student, I also build digital products, so I understand how visuals work inside real interfaces. Looking for a creative role or internship where I can make work people notice.

WORK EXPERIENCE

Video Editor & Graphic Designer · Cosmic Technologies PLC · 2024 – 2025

- Edited short-form video for TikTok and other platforms, reaching roughly [1.2K–2.5K] views per video.
- Designed marketing materials for BekurGuide, including roll-up banners, brochures and Instagram posts.
- Produced visual and video content that supported product communication for technology projects.

Brand & Interface Designer · OurMoment · May 2026

- Designed the logo for OurMoment, a personalized digital gifting platform.
- Designed the frontend and mobile experience of the product, keeping the visuals consistent from brand to screen.

Freelance Brand Designer · Den Coffee Aug 2024

- Created the branding for Den Coffee. [Add what it included, e.g. logo, color palette, menu, signage.]

UI/UX Designer · Ashu Geberew · Jan 2025 – Feb 2025

CosmicTechPlc

- Designed the interface and experience for a mobile application and its download website.
