PROFESSIONAL SUMMARY

Software Engineering student in my fourth year, with roughly two years of hands-on experience building full-stack web and mobile applications. I work mainly in JavaScript and Python, using the MERN stack, Next.js, Laravel, Django and Expo, and I deploy with Docker, AWS and Cloudflare. My projects include real estate platforms and a personalized digital gifting product, and I've contributed to the web and mobile builds of several others. Because I also design interfaces, I build with the user in mind and can work closely with designers and product teams. I'm looking for a software engineering role or internship where I can ship real features and keep growing.

WORK EXPERIENCE

Frontend Designer & Mobile Application Developer · OurMoment **May 2026 - Sep 2026**
CosmicTechPlc

- Built the frontend of OurMoment, a platform for creating, personalizing and sharing digital gifts, using [Vue.js, Laravel(PHP).
- Developed the mobile application with [Expo / React Native], bringing the web experience to phones.
- Designed the interface myself, so features went from idea to working screen without a handoff.

Mobile Application Developer · GebetaRSM **Aug 2026 - Present**
CosmicTechPlc

- Developed features for the GebetaRSM mobile app, built alongside its web product. [React Native/ Expo]
- Kept the mobile implementation consistent with the web platform within a team working across both.

Web Contributor · BekurGuide **Mar 2025 – Aug 2026**
CosmicTechPlc

- Contributed to the development of the web designing and keeping it up with the user needs

Web/Mobile app Designer & builder · Ashu Geberew **Jan 2025 - Feb 2025**
CosmicTechPlc

- Designed the interface and user experience for a mobile application and a website.

Web/Mobile App Designer & Developer · ORG-360 · **Jan 2026 - Apr 2026**
CosmicTechPlc

- Built a platform where real estate agencies, hotels, cafés and other venues publish shareable 360° virtual tours that visitors can explore in the browser.
- Developed the core user flows and the companion mobile app for managing spaces.

EDUCATION

Bachelor of Software Engineering
BITS College : School of Systems and Technology
- Current CGPA: 3.60

Dec 2023 – Dec 2027 (expected)

Udacity: Programming Fundamentals
Certification
- www.udacity.com/certificate/e/d90ab818-49bb-11ef-9d4e-27dea59cc8dd

SKILLS

- Languages: JavaScript, Python, PHP
- Frontend: React, Next.js, Vue.js
- Backend: Node.js, Express, Laravel, Django
- Databases: MongoDB [add any others you use, e.g. MySQL, PostgreSQL]
- Mobile: Expo (React Native)
- Cloud & DevOps: Docker, AWS, Cloudflare
- Tools: Git, GitHub
- Also: UI/UX design, Figma, graphic design, video editing
